Full day (10am-4pm or 2pm-8pm) with three or four activities including cooking, music-making, film-making and art. Teams do one activity in the morning, showcase what they have produced over a whole group lunch, then regroup with different team members in the afternoon for a different activity. The morning cooking group prepares the lunch for everyone and the afternoon group prepares afternoon tea. Teams will be supported through different creative team experiences such as making a film advert about your company to use as a fun promotional tool, making a group art piece to display in your office, creating and playing a musical performance, or using graphic design and photography to create a poster or series of postcards to give out to your clients.

Steamin' Billy Group at Soft Touch, June 2016

35 Steamin' Billy staff got to try their hand at cooking lunch and making afternoon tea for the whole team; making two short Steamin' Billy film adverts; creating two pieces of group artwork; and producing and performing music using live instruments and iPads. A piece of the finished artwork is now proudly hanging on the walls in one of their pubs.

All the staff really enjoyed the day, got to work and socialise with people they wouldn't normally meet day-to-day and learned a bit more about the work of Soft Touch. Billy Allingham, Managing Director, said "What a lovely way of getting our team together as we are a growing company and it is very important for our management to work alongside our staff, and also a great way to support a local charity".

Since 1986 Soft Touch Arts has been creating opportunity for and changing the lives of Leicestershire's most vulnerable children and young people. We use arts, media, music and cooking as a tool to support young people with challenges in their lives, engaging them in projects which build creative, social and employability skills.

Booking a creative team building package is a great way to support our work, with fees reinvested into our creative and life skills programmes with young people. All those taking part will feel involved, learn new skills and have a great sense of achievement at the end of the day, leaving with a positive feeling, knowing that they are supporting an award winning local children's charity.

"I came to the team building day feeling a bit nervous as I didn't think of myself as creative in any way but I got totally involved once we started doing the activities and really enjoyed painting and being part of a film crew. At the end of the day I came away feeling happy and proud of the art and the film our team produced. We had a great time, met and got to know other pub staff - it really was a day to remember. Also now I know more about Soft Touch Arts, I feel really good that by doing something fun we also helped them to continue supporting young people". Phil, Manager of The Western pub.

"The cooking session we had at Soft Touch Arts was a fantastic experience and team building exercise from both a personal perspective and for Arch Creative as a whole. It was great to see all of our team members with different skill sets put on a level playing field and try their hand at something new - in our case making samosas, spring rolls and stir fry. The chef's passion and enthusiasm was infectious and we all picked up lots of tricks of the trade which we can take into our everyday lives".

Joe Nixon, Director, Arch Creative

"Seeing members of the team who don't ordinarily work with each other doing activities together was great. Such a fun day - other companies should book this - such a great way to do team building and to fulfill their CSR objectives". Robert Woolston, Director, rg+p Ltd.
