## SKILL-SHARE SCHEME

**Soft Touch Arts works with some of Leicester's most disadvantaged young people through art, music and media activities to build up their self-esteem and move towards a better future.**

We believe local professionals have an important role to play not only in sharing skills but also in offering a fresh perspective and raising aspiration.

We need people to join our register of skilled volunteers to support groups of young people at Soft Touch on an ad hoc basis. You'll need to have a key business or creative skill to share as well as be empathetic, patient and a great communicator.
